APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the

following limitations and conditions: This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit No. 22437 is issued subject to the terms and conditions imposed in said Permit No. 22437 and with the understanding that no other rights on the source will be affected by the proposed change. This permit is further subject to the provisions of the Ruling dated June 18, 1965 in the matter of Applications 22435, 22436 and 22437. The water developed from the subject well must be developed below the blue clay strata and no perforations of the casing will be allowed above this impervious strata. The existing well covered under Permit 22437 must be

plugged and sealed within thirty (30) days of the completion of the well which is the subject of this permit. A meter must be installed in the discharge pipe line, near the point of diversion, immediately upon completion of the well and accurate measurements must be kept of the water placed to beneficial use. The State reserves the right to regulate the use of the water under this proposed change at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.758 cubic feet per second

Actual construction work shall begin on or before October 9, 1968

Proof of commencement of work shall be filed before November 9, 1968

Work must be prosecuted with reasonable diligence and be completed on or before October 9, 1969

Proof of completion of work shall be filed before November 9, 1969

Application of water to beneficial use shall be made on or before October 9, 1970

Proof of the application of water to beneficial use shall be filed on or before November 9, 1970

Map in support of proof of beneficial use shall be filed on or before
